

# Roofinggreen®

NATURE DRAIN

patented  
product

made  
in Italy

## Outdoor module for the coating and the drainage of flat surfaces

**N**ature Drain adds to the systems technology of Roofinggreen, the drainage capacity, thanks to 12 holes 6 mm wide in every tile, completely invisible and able to facilitate the disposal of storm water. Nature Drain is available with adjustable feet for leveling slightly inclined surfaces, or without them for continuous laying on earth, gravel or other draining surfaces.
