Description:

See Context and Make Connections across the Humanities

Discovering the Humanities helps students see context and make connections across the humanities by tying together the entire cultural experience through a narrative storytelling approach. Written around Henry Sayre's belief that students learn best by remembering stories rather than

memorizing facts, it captures the voices that have shaped and influenced human thinking and creativity throughout our history.

With a stronger focus on critical thinking, and coupled with the new MyArtsLab to personalize learning for each student, the second edition enables students to deepen their understanding of how cultures influence one another. It also shows how ideas are exchanged and evolve over time, and how this collective process has led us to where we stand today.
